

Allan H. Treman State Park Seasonal Slip Applications

Seasonal Slip Applications: Slips will be available to reserve beginning at 9 am on February 1, 2024.

The application process is **2 steps**.

Step 1: Boaters should select and pay for the appropriately sized slip according to overall length of their vessel by going to [Reserve America](#). Once the conditional slip reservation is made, boaters will receive a confirmation email from Reserve America with a Link to Step 2.

Step 2: Click the link in your confirmation email to complete the electronic Slip License Agreement via DocuSign. To be considered complete, all applications must include these documents:

- A valid copy of your registration **or** US Coast Guard documentation showing proof of length (expired registrations will not be accepted).
- Proof of vessel insurance (provide a current Declarations page which shows coverage amounts).

*During the term of this license, Licensee must hold a policy of marine protection and indemnity insurance for the licensed boat covering bodily injury, damage to property other than the boat itself, and fuel/oil spills with a minimum liability limit of \$300,000.

NOTE: In order for your slip application to be considered complete, boaters will need to complete all parts of the application process ***within 10 days*** of making the initial reservation. If the slip agreement, insurance, and registration information are not complete within 10 days, ***the initial reservation will be voided and refunded, and the selected slip will be placed back online for reservation by the public.***

Also, if you were born on or after January 1, 1978, you must provide a [Boater Safety Certificate](#) to complete your application (this applies to sail boats with auxiliary motors as well).

Click here for details about [Brianna's Law](#). All motorboat operators, regardless of age, will need a boating safety certificate in 2025.
