Questions and Responses

**C003432
Marine and Recreational Vehicle Safety
Certification System**

No.	IFB Section	IFB Page	Question	Response
1	2.9	15	Will NY consider proposals from vendors intending to use their own payment processor? For example, [Vendor] utilizes [Payment Processor] for all transactions under the [NYS-held] contract, which facilitates significant annual revenue for the state. Is OPRHP open to consider this option?	In order to properly effectuate an apples-to-apples comparison, submitted proposals must contemplate the payment processing services as provided in Section 2.9 of the IFB. For clarity, vendors should not submit proposals with the intent of using their own payment processor.
2	Attachment 1 – Bid Form	86	Will OPRHP consider alternate funding models? For example, a model where the system is completely paid for by event registration fees?	OPRHP declines this request.
3			What software vehicle will this RFP fall under, or will it be open market?	This service is being procured open market via Invitation for Bids (lowest price). Please refer to the IFB for specific requirements, including Section 3.5 Method of Award.
