

Questions and Responses

OP32100

Vacuum Excavator for the Long Island Region

Question	Response
<p>Due to very low availability we have found only one unit that fully matches the specs of the bid which was designed around our machine specifically.</p> <p>This unit we found is at another dealer out of state and is a brand new, unused machine, however it is a year 2023.</p> <p>Would this disqualify our bid due to it not being a 2024?</p>	<p>A model year has not been included as a minimum specification; therefore, if a product meets all of the requirements included within IFB Section 2. Minimum Specifications, it will be considered for award</p>
