

Questions and Responses

OP32900

Four (4) Can-Am Defender Max (or Equal)

UTVs with Tracks

No.	IFB Section	IFB Page	Question	Response
1	3.6	10	Given the time the bids are due, Mar 5th, and the potential delivery date the product could arrive if awarded, would you like us to include the tracks installed or the tires and wheels?	If the product arrives during spring or summer months, wheels shall be installed for delivery. Tracks shall be installed for a late fall/winter delivery.
2			On the bid for the 4 Can Am Defender Max LTD's with tracks OP32900, it lists "Mud Front Bumper". It comes with the "XT" front bumper standard, the alternate options are "Front Bumper", or "Rancher Front Bumper" or "X mr Front Bumper". I just wanted to clarify which one you are looking for.	The "Front Bumper" is the preferred and spec'd option.
