Magic Lantern Show Saturday, June 7, 2025 Rain date: Sunday June 8, 2025 Seating at 7:30, show starts at 8:30 Mansion Lawn Free

From the late 17th century to the dawn of the 20th, the magic lantern transformed storytelling into an enlivened visual experience. By the late-Victorian era, the magic lantern was an important and ubiquitous visual medium. Eventually eclipsed by the coming of the movies, the wonders of this once-familiar entertainment are rarely experienced by the modern audiences.

Join magic lantern performers Dawn Elliott and Joel Schlemowitz as they bring this fascinating medium back to life at Clermont, presenting their award-winning magic lantern show. Using period-era glass slides, magic lantern projectors, music and narration, the program encompasses tales of Victorian-era anthropomorphic animals, animated images, nautical disasters, and circus antics. This is a rare opportunity to marvel at hand-colored images, dissolving views, and animated effect slides, showcasing the remarkable visual experience of bygone times.

Colonial Crossroads Juneteenth Concert Sunday, June 22, 2025 1:00 pm Visitor Center

On June 19th, 1865, enslaved people living in Texas were freed. With Texas being the last place in the traitorous Confederacy that the Emancipation

Proclamation to reach, that day became synonymous with the freeing of enslaved people in America. Now a federal holiday, the name is derived from combining "June" and "nineteenth". Musical group Carla and Keyes, Carla Lynne Hall and Jim Keyes present a family friendly interpretation of African and European traditions and instruments that influenced each other during the Colonial and Revolutionary years. The audience is encouraged to participate in call-and-response and body percussion techniques. Jim is a multi-instrumentalist who uses baroque guitar, mandolin, mountain dulcimer and recorders to perform European music from the Colonial Era. Carla represents the African side of Colonial America through stories and songs performed on Shekere and Djembe.

Slow down and discover works of art up close

Olana State Historic Site | Sharp Family Gallery **Organized by The Olana Partnership**

Frederic Church carefully studied the world around him, incorporating those observations into his paintings, guiding the viewer's eye through his composed landscapes, and encouraging them to take A Closer Look. The Olana Partnership invites you to discover works of art through close looking,

observation, and conversation. Participants in A Closer Look will be encouraged to slow down, open their minds to discover Frederic Church's art in new ways, and spend time in close dialogue with select artworks from the Olana collection. New works of art will be featured each month; no prior knowledge of art is required. Visit OLANA.org/acloserlook for the full schedule.

Olana State Historic Site | June 14 – November 2, 2025 Organized by The Olana Partnership

Olana is the most intact historic artist's environment in the United States, encompassing the Main House and its extensive collections, an historic farm complex, and the 250-acre landscape designed by Frederic Church. Despite its remarkable state of preservation, several of Olana's extant structures were removed years prior to Olana becoming a National Historic Landmark and New York State Historic Site. In these structures' absence, stories of the people who built them and the functions they served have

also been lost. Visible foundations and archaeological evidence survive for some of these missing structures. In other cases, only photographs, maps, or oral histories bear witness to their past existence. These buildings may have vanished, but their stories remain embedded within Olana's landscape. For *What's Missing?*, The Olana Partnership commissioned artists **Ellen Harvey** and **Gabriela Salazar** to create site-specific outdoor artworks that respond to these missing pieces of Olana's landscape history. June 21: 2pm Navigating Wealth & Poverty: The Varied Economies of the 19th Century Black Community

"From its inception, the Dutchess County economy has been at the crossroads of great economic currents. From the earliest times of Dutch settlement, it has operated in the economic realms of global trade right down to the smallest economic unit of the self-sufficient farm. We examine

how the Black community, focusing on the 19th century, engaged in all those economic levels locally. We find extremes of wealth and poverty, and a growing middle class of professionals who often worked within, or intersected with, these various levels of economic activity. Likely because of the pervasiveness of slavery even in the most rural parts of the county until its abolition in New York State in 1827, communities of color were present in both built up and the most remote in-land rural areas. This presentation is led by Bill Jeffway, the Executive Director of the Dutchess County Historical Society, where he serves on the research committee of Celebrating the African Spirit, and on the advisory committee to Vassar College's Inclusive History Initiative. Brief reception following presentation. **Reservations required: https://SSHSWealthandPoverty.eventbrite.com**
